

# game time: messenger

## description

A competitive and exciting review activity for a skill that the class has completed together.

## steps

- 1** Pre-select key sentences from a Duolingo skill and post them around the class, school, or outdoor learning area so students need to physically move to read them.
- 2** Students work in pairs or teams to complete a relay "race," where one team member goes to where the sentence is posted and runs back to their team's station where a "writer" transcribes the sentence, dictated by the messenger.
- 3** The first team to report back to the teacher with their full list of sentences, all accurately transcribed, wins!

## protip

Select your locations carefully, as this game might quickly turn into a lot of running around.
