game time: catch them all!

description

Let's go on a word collecting adventure!

steps

1 Prepare by determining a skill you are working on and select 10 words for students to "hunt" as they work through lesson exercises, Duolingo stories, or listen to Duolingo podcasts.

2 When students spot one of the special words in a lesson, they should write the full sentence down. They might have to do several lessons, stories, or podcasts.

3 How many of the words can each student or team "catch" within the time limit?

protip

Change the game: groups can "claim" words they get to first.
