

game time: and the oscar goes to...

description

How about adding some...drama to your class?

steps

- 1** Start a Duolingo lesson and write down all the sentences that show up. You can do this part together as a class or in pairs/groups.
- 2** The pairs/groups then pick their favorite sentence from that pool and write a short sketch that ends with that exact sentence.
- 3** Groups act out their written sketches to much applause. If this is a shy group, you can have them film their sketch and act in it, or use illustrations/puppets instead.

protip

For a quicker version, select Duolingo sentences in advance.
