

activity: story reenactment

description

Who doesn't love a good skit? Get your students up and moving with this activity, contributed by Katherine Wozniak!

steps

- 1** Instruct students to form groups of 3 and select a Duolingo Story that they have engaged with during their lessons. Allow them a moment to assign 2 actors and a director. The actors will be responsible for playing one of the characters in the Story, and the director will be responsible for filming and offering narration.
- 2** Set aside class time for students to memorize their lines and practice their scene. Remind them they must use the complete Story script. Challenge them to take their learning even further by selecting props to help set the scene.
- 3** Finally, instruct students to film their reenactments! Encourage them to get into character by using clothes found at home to recreate their characters' looks. Remind them to do their best work!
