

duolingo and chill

tips for using subtitles to supplement your language learning experience

1 watch again

Play an old favorite with subtitles in the language you are learning. Studies show that this can help you learn new vocabulary words!

2 test yourself

Do your best not to rely on the subtitles for comprehension. Watch for a bit and then check--did you understand correctly?

3 take notes

Write down any new phrases that you learn or slang that you pick up. In fact, we'd love to hear about it! Tweet it to us @duingoschools.
